SUMMARY STATEMENT

Experienced React developer with over 2.5 years of experience in building high-quality web application using React and related technologies. Proficient in creating responsive UI designs, developing reusable component, and implementing complex business logic. Skilled in using Redux, Tailwind css, React Query, Typescript and Other web technologies to create efficient and scalable applications. Successfully delivered projects for client in various industries, including fintech, social media platform, e-commerce, Education, Strong problem-solving skills and ability to work collaboratively with cross-functional teams to deliver projects on time and within budget.

EDUCATION

M.Sc Computer Application | University of calicut | 2018 - 2020

Bachelor of Computer Application | University of calicut | 2015 - 2018

EXPERIENCE

React JS Developer, Team Lead, Gj Global IT Ventures, Cyberpark, calicut, 08/2022 to Current

Responsibilities:

- Develop new user-facing features using React.js
- Build reusable components and front-end libraries for future use
- Collaborate with other team members and stakeholders to design, develop and deploy web applications
- Ensure the technical feasibility of UI/UX designs
- Optimize web applications for maximum speed and scalability
- Debug and fix issues reported by users
- Stay up-to-date with emerging trends and technologies in front-end development

Achievements:

- Developed and maintained reusable React components and libraries for use across multiple projects, resulting in a significant reduction in development time and improved code quality.
- Designed and developed a responsive and user-friendly web application using React.js for a client that improved user engagement by 25%
- Implemented a new feature that increased user retention by 15%
- Successfully integrated third-party APIs into the web application that improved its functionality and user experience
- Developed a reusable component library that saved the team an average of 10 hours per week on development time
- Collaborated with the UX/UI team to optimize the web application's design and user experience resulting in a 20% increase in user satisfaction
- Improved web application's performance and page loading speed by optimizing code and reducing file sizes, resulting in a 30% reduction in page loading time

React JS Developer, Pixbit Solutions, Cyberpark, calicut
01/2022 to 08/2022

Responsibilities:

- Collaborate with other developers and stakeholders to design, develop and deploy web applications using React.js
- Develop and implement new features and functionality in existing web applications
- Write reusable and maintainable code following best practices and coding standards
- Debug and fix issues reported by users
- Conduct code reviews and provide feedback to team members
- Stay up-to-date with emerging trends and technologies in front-end development

Achievements:

- Developed a responsive and user-friendly web application using React.js that improved the user experience by 20%
- Successfully implemented a new feature that increased user engagement by 15%
- Improved web application's performance and page loading speed by optimizing code and reducing file sizes, resulting in a 25% reduction in page loading time
- Contributed to the development of a reusable component library that saved the team an average of 5 hours per week on development time
- Collaborated with the UX/UI team to improve the web application's design and user experience resulting in a 10% increase in user satisfaction
- Successfully integrated third-party APIs into the web application that improved its functionality and user experience

Web Developer, SRBC Private limited, Hilite mallt, calicut
04/2021 to 01/2022

Responsibilities:

- Collaborate with other developers and stakeholders to design, develop and deploy web applications
Write clean and efficient code using HTML, CSS, JavaScript, and other web technologies
- Implement responsive and user-friendly designs following best practices and coding standards
- Learn new web technologies and coding languages as required
- Follow agile development methodologies and participate in daily stand-ups, sprint planning and retrospectives

Experiences:

- Worked on multiple web projects using HTML, CSS, and JavaScript
- Developed and implemented new features and functionality in existing web applications
- Contributed to the development of a reusable component library
- Worked with web design and UX/UI teams to ensure designs were accurately implemented and optimized for user experience

Gained experience with version control tools such as Git and SVN

Gained familiarity with various web development frameworks and libraries, such as React,

TECHNICAL SKILLS:

- Strong proficiency in React.js and its core principles
- Experience with popular React.js workflows (such as Redux, Context API, React query)
- Knowledge of **HTML, CSS (Tailwind css, bootstrap), JavaScript (including ES6 syntax), MUI, React bootstrap,**
- **React query, Typescript, Redux, Redux toolkit, Jest, Next Js**
Experience with front-end web development tools and frameworks, such as Webpack, Babel, or Node.js
- Experience with version control tools such as Git
- Understanding of web performance optimization techniques and tools
- Knowledge of testing frameworks such as Jest, or React Testing Library
- Familiarity with RESTful APIs and integrating them into web applications

TECHNICAL SKILLS:

- Strong problem-solving and analytical skills
- Ability to work collaboratively in a team environment
- Strong communication and interpersonal skills
- Detail-oriented with a focus on delivering high-quality work
- Ability to learn quickly and adapt to new technologies
- Good time management and organizational skills

TECHNICAL TRAININGS AND EVENTS

SEMINAR: National Conference on Computational Intelligence and Data Analytics, CIDA 2019 – University of Calicut, 2019 February 26,27.

PHP & ANDROID: Regional Technologies, Calicut, December 2017 to March 2018 (UG Project)

NATIONAL SERVICE SCHEME: WMO Arst and Science College, Muttill 2015 – 2017, Attended Special Camp
